-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### ***Claim Objections***

Claims 98-99 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The process of delivering the permeant does not further limit the system which includes a permeant and a heat source.

Claims 94,95 are objected to because of the following informalities: It is unclear as to what further structural limitations have been set forth. It appears that the claim merely defines the intended use of the system. Appropriate correction is required.

### ***Double Patenting***

Claim 106 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 91. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 91,106 are rejected under 35 U.S.C. 102(b) as being anticipated by applicant's admission of the prior art. Applicant discloses that it is known to use a heat source to create a micropore. The prior art heat source would be capable of functioning as set forth in the claims.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 84-90, 92-105 are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's admission of the prior art. Applicant discloses that it is known to use a heat source to create a micropore. The prior art heat source would be capable of functioning as set forth in the claims. The micropores are created to deliver a drug to the patient. In the absence of showing of criticality or unexpected result, the specific drug or treatment material delivered to the patient would have been obvious to one skilled in the art based on the desired effect.

***Allowable Subject Matter***

Claims 74-80,82,83 are allowable over the prior art of record.
